

PENNSYLVANIA
BIOTECHNOLOGY CENTER

15 YEARS of Global Reach and Local Impact

We're in the new space!

Construction on our fourth building plus improvements to our campus -- a \$20 million project -- is finished!

The new offices and lab space are fully occupied by PABC-member companies, the Blumberg Institute and Hepatitis B Foundation.

Please read more [here](#).

California-based biotech expands R&D footprint at the PABC

Two [IGM Biosciences](#) business units, Infectious Diseases and Autoimmunity and Inflammation, are now located on the PABC's Doylestown campus. IGM expects that up to 30 scientists and other IGM professionals eventually may be working in our Bucks County facility.

IGM is a clinical-stage biotechnology company focused on creating and developing IgM antibodies. IGM's proprietary IgM technology platform is able to overcome the manufacturing and protein engineering hurdles that have historically limited the therapeutic use of IgM antibodies and allows for the development of IgM antibodies for clinical indications where their inherent properties may provide advantages as compared to IgG antibodies. More [here](#).

Hepatitis B Foundation: Sharing Our Journey, May 7 at 12 p.m. EDT

Please join the Hepatitis B Foundation for "Sharing Our Journey" on May 7, at 12 p.m. EDT. This event will be an interactive panel discussion about research, health equity, and the challenges and opportunities in the world of hepatitis B.

Leadership from the Hepatitis B Foundation and Baruch S. Blumberg Institute will take questions from event attendees and share their thoughts on the future of research and what it will take to prepare the world for a cure.

B+Labs is 95% leased!

A collaboration between the PABC and Brandywine Realty, B+Labs at Cira Centre is a new life sciences incubator in University City, Philadelphia, that opened Jan. 3.

The space already is 95% leased to blue-chip life science enterprises, such as Ceptur Therapeutics, Vitara Biomedical and Tmunity. Some already were local but about 45% were from out-of-state. Replicating the PABC model at B+Labs has established a dynamic, flexible community of innovators who can grow their companies as they steward their discoveries into commercial offerings.

More on B+Labs [here](#).

Saint Joseph's University Pharmaceutical and Healthcare Marketing MBA program

The Blumberg Institute and Saint Joseph's University have created a partnership between the Haub School of Business and the Blumberg Institute to promote the University's Pharmaceutical and Healthcare Marketing MBA to industry professionals. Please read more [here](#).

Harrisburg University and Blumberg Institute biotech workforce leadership development programs

Harrisburg University of Science and Technology and the Blumberg Institute have teamed up to offer graduate-level biotechnology certificates to prepare working professionals with workforce and leadership skills within the biotechnology industry.

The Biotechnology Certificate Program is being offered in partnership with the Blumberg Institute. Scholarships are available. More information is [here](#).

PABC Company Spotlight: FlowMetric acquired by major CRO

Continuing to deliver against both growth objectives and more integrated customer service offerings, KCAS has acquired FlowMetric, LLC, a provider of flow cytometry and cellular assay R&D services to biotech, pharmaceutical and cell and gene therapy industries.

FlowMetric is a leading provider of flow cytometry and cell-based assays located in Doylestown, Pa and Milan, Italy. Vitruvian Partners, one of the world's leading growth-focused investment firms, acquired KCAS in April 2021. The combined companies are positioned to continue growing operations in Kansas City, Milan and Doylestown.

Please read more [here](#) and consider submitting your PABC-member company's news to Ed Tate, edward.tate@pabiotechbc.org.

Welcome to our newest members

Welcome to the newest members of the PABC!

- Antios Therapeutics
- OCMS Bio LLC
- Primerica
- SA Laboratories Inc.
- Shams Consulting LLC

Some of these companies will have operations on site. The PABC members list is [here](#).

The PABC is one of the nation's most successful life sciences incubators. A nonprofit organization, the center is dedicated to creating a world-class biotechnology center; promoting regional economic development and job creation; and educating and training tomorrow's researchers.
